

## Geographical position

De Steppe in Ulicoten is situated at the Dutch-Belgian border, in the centre between the cities of Breda-Tilburg-Turnhout (Belgium). Ulicoten belongs to the Dutch municipality of Baarle-Nassau, which is unique because of its enclaves. Together with the Belgian municipality of Baarle-Hertog, this village forms the twin village of "Baarle". With just as many Belgians as Dutch in the village centre, this is a great example of a European community.
